OPERATIONS IN MAIN APRON **JUAN SANTAMARIA INTERNATIONAL AIRPORT**

The General Directorate of Civil Aviation, informs to all air operators at the Juan Santamaría International Airport that, due to the gradient in some parking stands on the Main Apron, it recommends entering the assigned stand position, without turning off any of the engines.

The above, with the aim of avoiding situations that could lead to saturation of the Alfa Taxiway or delays in the Main Apron, by having to turn on any of the engines to enter the parking position.
